

BRIEF EXPERT REPORT / SHIELDING ATTENUATION

Material under test

Metallized polyamide netting **HNG100**

Subject

Measurement of the shielding attenuation of electromagnetic waves from **30 MHz to 4 GHz**.

Regulations

According to **ASTM-4935-10**. Measurement with non-directional (radial) polarisation.

Date of measurement

27 th of september 2011

Herewith I guarantee the technical accuracy and correctness of the measurement and the results.

Manager and owner, Danner Christian
